DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-15 and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant attention is drawn to the phrase "the seat cushion and seat back keep a constant posture by operation of the link mechanism and the drive unit", is unclear and confusing. Does this mean that the seat back and cushion does not tilt? Or does it mean that the seat back maintain the upright position relative to the seat cushion?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 11 as best understood are rejected under 35 U.S.C. 102(b) as being anticipated by Moon (6,270,141). Moon discloses the use of a seat back (24, figure 1); seat cushion (figure 1); a four link mechanism (44,50), for supporting the seat cushion; and a drive unit for driving the link mechanism and moving the seat cushion

Art Unit: 3636

between a seating position and a stowed position, the seat cushion is moved between the seating position and the stowed position, the seat cushion and the seat back keep a constant posture by an operation of the four link mechanism and the drive unit. In regards to claim 11, further comprising a motor (column 7) operated drive unit for supporting for driving the link mechanism and moving the seat cushion between a seating position and a stowed position, the seat cushion is moved between the seating position and the stowed position, the seat cushion and the seat back keep a constant posture by an operation of the four link mechanism and the drive unit.

Allowable Subject Matter

Claims 2 and 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 12-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-2, 4-8 and 11-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
